Timeware Primetime Solution  
Release Notes

Version 6.10.1.23

Scheduled Release Date: 05/01/2010

The Timeware Primetime release notes document describes changes made to the system since the last official release of the product. The release notes are organized under 4 sections: User Reported Issues, Additions & Enhancements, Reporting Issues and Reporting Update.

*Should you have any comments or feedback regarding the content of this document or should you have any suggestions for us to improve the content or delivery method of this document please let us know. We thank all our clients for their continued support and participation.*

### **User Reported Issues:**

- Job drop down selection in the attendance time charge detail screen did not always list all employee assigned jobs. Corrected this issue in this release.
- When adding leave time if the day selected is not a work day the system assumed the standard hours were 0 thus failed to add charges with hours equal to employee standard hours. Corrected this issue in this release.
- Employee, Job and Group assignment screens did not show data sorted as required. Corrected this issue in this release.

### **Additions & Enhancements**

- Added mechanism for verifying the completeness and integrity of the Bioscreen client update file.
- Various enhancements to the Accrual module to support more accrual types like periodical based accrual (monthly and per pay period).
- Added a new accrual manual transfer screen.
- Added time zone support at the Bioscreen level.
- Added the ability to override guaranteed hours value.
- Added the ability for setup and generate rotation schedule using a master calendar that allows manual changes as well as template projection.
- Added the ability for automatic scheduler to auto generate attendance data.
- Added access security user assignment to work calendar and schedule calendar.
- Added the ability to automatically manage employee pay step progression.
- Added the ability for the Bioscreen to detect profile changes automatically and thus update itself.
- Added the ability to separate holiday into holiday sets which then can apply to different schedule calendars.
- Added the ability to override time charge double time.
- Added the ability to override time charge comp time.
- Added the ability to track the Bioscreen fingerprint registrar id.

## **Reporting issues**

- Issues with time zone handling if the database subsystem is not up to date. The remedy can be done by Timeware support staff which include running the database Upgrade utility.

## **Reporting Update:**

- Accrual Reporting Improvement by making the process consistent with the latest Primetime DB modifications.
- Added “IP Address” and “Time Zone” to the Bioscreen List report.
- Improvement of the Bioscreen List reports.
- Removed the “Hours” column Total from all the Accrual Reporting.
- Added “Calc. Net” to the Payroll Export Reporting.
- Process efficiency improvements in all the Reporting.
- Implemented time zone reporting support for the following reports:
  - Actual vs. Scheduled (Attendance and Scheduling sides)
  - Attendance Audit Trail (4 reports)
  - Attendance Deleted Records Audit Trail
  - Biweekly Attendance Summary
  - Multi Week Attendance Summary
  - Employee Attendance Record
  - Biweekly Schedule Summary - By Employee
  - Biweekly Schedule Summary - By Job
  - Multi Week Schedule Summary - By Employee
  - Multi Week Schedule Summary - By Job
